Hi Melissa

That webinar has been postponed, but will happen soon. All registrants were notified and the link has been removed from our website. PVPC is hosting an NOI training today at 1pm. Other trainings and the new webinar date will be posted as information becomes available. The PVPC session was not posted as registration filled up quickly without notice on our website.

I see on EPA's Massachusetts Small MS4 General Permit website (see below) that there is supposed to be a webinar on completing an NOI. However the link to register does not work. The link goes to a page that says "Webinar Not Available This webinar or its recording was removed. Please contact the organizer for more information." Is the webinar still happening tomorrow? How do I register, or is it too late?

Also, the website (see below) includes "NOI Training (Multiple locations and dates in June and July, check back soon for more information)." Locations and dates are not on the website (I believe there is a training today at PVPC), and June is almost over. Please clarify.

Thank you!
